

The Rim Fire is now at 187,000 acres and 23% containment. We had a good meeting at the community center and the outlook is good. We are 7-8 miles away from the fire and they are putting in more containment lines. We do have a few Permittees coming up for family heirlooms pictures and stuff that means a great deal to them. We are still under the advisory evacuation. The engines are still here doing the preplanning. The smoke is better today but still in the unhealthy range. The Pictures are from the same location and time as yesterday's.

PAT

**Little Sweden Vista**

Looking downhill

Looking towards Pinecrest

<< **Marina** – looking toward Inlet

>> **Marina** – looking toward South Shore

Mr. Sun still trying to peek at the Lake this morning ..... maybe tomorrow.
