To the Board of Directors
Pinecrest Permittees Association
Sonora, CA

We have audited the accompanying financial statements of Pinecrest Permittees Association, (a California non-profit organization) which comprise the statement of financial position as of December 31, 2013 and 2012, and the related statements of activities and changes in net assets, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based upon our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design and audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide as basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pinecrest Permittees Association as December 31, 2013 and 2012, and the changes in its net assets and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule of Expenses is presented for the purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 2 – Summary of Significant Accounting Policies

Pervasiveness of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Pinecrest Permittees Association
Notes to the Financial Statements (continued)
December 31, 2013 and 2012

Basis of accounting – The Association reports its revenues and expenses on the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recognized in the accounting year in which the liability is incurred.

Cash and cash equivalents – Cash is held in checking and savings accounts. Certificates of deposit with a term of three months or less are classified as cash equivalents for financial reporting purposes.

Retirement Plan – The Association maintains a Section 401(K) employee retirement plan for eligible employees. For 2012 and 2013, the cost to the Association was \$70,772 and \$81,865, respectively.

All of the members' equity of the Association is unrestricted. There is no temporarily or permanently members' equity.

Cost Allocation Plan – The Association allocates indirect costs using a method similar to the Direct Allocation Method as promulgated by *OMB Circular A-122 Revised*. Indirect general and administrative costs are allocated to each fund activity pro rata using total direct costs before depreciation. Indirect depreciation costs are allocated to the General Fund.
