Subject: Pinecrest Homeowners Association

Tim,

Really great catching up (for a small bit) with you a few minutes ago. A quick personal touch on this company of ours.

Back in 2008 when it appeared to us that construction was really slowing, we invested in a wireless ISP startup up. As time passed and the need for further funds, we increased our ownership and our family is now the primary owner of Conifer Communications.

We currently (primarily) have service in Calaveras, Tuolumne and Mariposa Counties. Primarily, because we do lap over into Stanislaus and Merced Counties.

If you go to our website, www.Conifercommunications.com, you can see much more information than I can put in this simple email.

We show coverage up into the Strawberry area because we have been serving Tri-Dam since early last year. We are now freeing up company personnel, who have been working to service much more heavily populated areas, to extend service to the Pinecrest and Strawberry area. Also, recent upgrades equipment available to ISPs is helping to make or give us the opportunity to extend service deeper into the mountain areas.

If you have any questions before next Tuesday's meeting, just send me an email. Other than that, look forward to addressing the meeting on Tuesday.

Also, look forward to hearing about your meeting/dinner at Columbia airport next week.

Have a great Memorial weekend!

Thanks,

David
